## **II. JURISDICTION AND VENUE**

5. This is an action for patent infringement arising under the patent laws of the United States, Title 35, United States Code. The Court's jurisdiction is proper under the above statutes, including 35 U.S.C. § 271 et. seq., and 28 U.S.C. §§ 1331 and 1338(a).

6. This Court has personal jurisdiction over each Defendant. Each Defendant has conducted and does conduct business within the State of Arkansas. Each Defendant, directly or through intermediaries (including distributors, retailers, and others), ships, distributes, offers for sale, and sells its products in the United States, the State of Arkansas, and the Western District of Arkansas. Each Defendant has purposefully and voluntarily placed one or more of its infringing products, as described below, into the stream of commerce with the expectation that they will be purchased by consumers in the Western District of Arkansas. These infringing products have been and continue to be purchased by consumers in the Western District of Arkansas. Each Defendant has committed the tort of patent infringement within the State of Arkansas and, more particularly, within the Western District of Arkansas.

7. Venue is proper in this Court under 28 U.S.C. §§ 1391(b), (c), and (d), as well as 28 U.S.C. § 1400(b), in that, on information and belief, each Defendant has committed acts within this judicial district giving rise to this action and does business in this district, including making sales and/or providing service and support for their respective customers in this district.

### III. PATENT INFRINGEMENT

8. On October 1, 2002, the United States Patent and Trademark Office ("USPTO") issued U.S. Patent No. 6,459,413, entitled "Multi-Frequency Band Antenna" (hereinafter "the '413 patent"). A true and correct copy of the '413 patent is attached hereto as Exhibit A.

9. ITRI is the patentee and owner of all right, title, and interest in and to the '413 patent, with full right to bring suit to enforce the patent, including the right to

recover for past infringement damages and the right to recover future royalties, damages, and income.

10. The '413 patent is valid and enforceable.

11. All requirements under 35 U.S.C. § 287 have been satisfied with respect to the '413 patent.

12. Samsung has been and is infringing the '413 patent by making, using, selling, offering for sale, and/or importing in or into the United States, without authority, products that fall within the scope of the claims of the '413 patent, including but not limited to mobile telephones such as Samsung models i607 and Samsung D520.

13. Samsung has been and is continuing to induce infringement of the '413 patent under 35 U.S.C. § 271(b) and contributes to the infringement of the '413 patent under 35 U.S.C. § 271(c), in conjunction with such acts of making, using, offering for sale, and/or importing in or into the United States, without authority, instrumentalities that fall within the scope of one or more claims of each of the '413 patent. The infringing instrumentalities have no substantial non-infringing uses.

14. Samsung had and continues to have actual knowledge of the '413 patent and their coverage of Samsung's infringing instrumentalities, but has nonetheless engaged in the infringing conduct. Samsung's infringement of the '413 patent was and continues to be willful.

15. As a direct and proximate result of Samsung's acts of patent infringement, ITRI has been and continues to be injured and has sustained and will continue to sustain substantial damages.

16. Unless Samsung is enjoined by this Court from continuing their infringement of the '413 patent, ITRI will suffer additional irreparable harm and impairment of the value of its patent rights.

17. ITRI has incurred and will incur attorneys' fees, costs, and expenses in the prosecution of this action. The circumstances of this dispute create an exceptional case within the meaning of 35 U.S.C. § 285, and ITRI is entitled to recover its reasonable and necessary attorneys' fees, costs, and expenses.

#### **IV. PRAYER FOR RELIEF**

ITRI prays for the following relief:

A. A judgment that each Defendant has infringed and continues to infringe the '413 patent as alleged herein, directly and/or indirectly by way of inducing or contributing to infringement of the '413 patent;

B. A judgment for an accounting of all damages sustained by ITRI as a result of the acts of infringement by each Defendant;

C. A judgment and order requiring each Defendant to pay ITRI damages under 35 U.S.C. § 284, including treble damages for willful infringement as provided by 35 U.S.C. § 284, and supplemental damages for any continuing post-verdict infringement up until entry of the final judgment with an accounting as needed, and any royalties determined to be appropriate;

D. A judgment and order requiring each Defendant to pay ITRI pre-judgment and post-judgment interest on the damages awarded;

E. A judgment and order finding this to be an exceptional case and requiring each Defendant to pay the costs of this action (including all disbursements) and attorneys' fees as provided by 35 U.S.C. § 285;

F. A preliminary and thereafter a permanent injunction against each Defendant's direct infringement, active inducements of infringement, and/or contributory infringement of the '413 patent, as well as against each Defendant's agents, employees, representatives, successors, and assigns, and those acting in privity or in concert with them; and

G. Such other and further relief as the Court deems just and equitable.
